Overlay plot for region-set skeletal_muscle_cluster1518_hg38

Legend:
- Case samples with significantly stronger coverage drop, n=4
- Case samples with significantly weaker coverage drop, n=20
- Case samples not sign. different or N/A, n=121
- Control samples, n=140

Y-axis: Bias corrected coverage, normalized by intercept
X-axis: Relative distance to center of ROI [bp]
