Overlay plot for region-set A549_pre_cluster2078_hg38

Legend:
- Case samples with significantly stronger coverage drop, n=2
- Case samples with significantly weaker coverage drop, n=6
- Case samples not sign. different or N/A, n=124
- Control samples, n=262

Y-axis: Bias corrected coverage, normalized by intercept

X-axis: Relative distance to center of ROI [bp]
