Overlay plot for region-set mammary_cluster2239_hg38

Legend:
- Case samples with significantly stronger coverage drop, n=2
- Case samples with significantly weaker coverage drop, n=1
- Case samples not sign. different or N/A, n=129
- Control samples, n=262

Y-axis: Bias corrected coverage, normalized by intercept

X-axis: Relative distance to center of ROI [bp]
